RAHUL SHARMA

SENIOR PYTHON DEVELOPER

Bangalore, India | rahul.sharma@example.com | +91 98765 43210
LinkedIn: linkedin.com/in/rahul-sharma | GitHub: github.com/rahulsharma

PROFESSIONAL SUMMARY

Results-driven Python Developer with 6 years of experience designing, developing, and maintaining scalable backend applications. Strong expertise in Python, Django, FastAPI, REST API development, microservices, and database optimization. Experienced in building cloud-based applications using AWS, Docker, Redis, and PostgreSQL. Skilled in performance optimization, asynchronous programming, and developing reliable enterprise-level software solutions.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Frameworks: Django, Django REST Framework, FastAPI, Flask

Databases: PostgreSQL, MySQL, MongoDB

Cloud: AWS EC2, S3, RDS, Lambda

Tools: Docker, Git, Jenkins, GitHub Actions

Message Queues: Redis, Celery, RabbitMQ

Core Concepts: REST APIs, Microservices, OOP, Data Structures, Algorithms, System Design

Testing: Pytest, Unit Testing, API Testing

PROFESSIONAL EXPERIENCE

Senior Python Developer | TechNova Solutions, Bangalore

January 2023 – Present

- Designed and developed scalable REST APIs using Python, Django REST Framework, and FastAPI.
- Developed microservices architecture to improve application scalability and maintainability.
- Optimized PostgreSQL queries and database indexing, reducing API response time by approximately 35%.
- Implemented asynchronous background processing using Celery and Redis.
- Integrated AWS S3 for file storage and AWS EC2 for application deployment.
- Containerized backend services using Docker.
- Implemented authentication and authorization using JWT and role-based access control.
- Developed automated unit tests using Pytest and participated in code reviews.

Python Developer | InnoTech Systems, Hyderabad

June 2020 – December 2022

- Developed backend applications using Python, Django, and Flask.
- Created REST APIs for frontend and third-party application integrations.
- Designed and maintained MySQL and PostgreSQL databases.
- Improved application performance through SQL query optimization.
- Implemented scheduled tasks and background jobs using Celery.
- Collaborated with frontend developers to integrate backend APIs.
- Used Git for version control and Jenkins for continuous integration.

PROJECTS

E-Commerce Backend Platform

Technologies: Python, Django, PostgreSQL, Redis, AWS, Docker

- Developed REST APIs for product management, customer accounts, orders, and payments.
- Implemented Redis caching to reduce repeated database queries.
- Integrated third-party payment gateways and deployed backend services using Docker on AWS EC2.

Employee Management System

Technologies: Python, FastAPI, MySQL, Celery, Redis

- Developed APIs for employee registration, attendance, and leave management.
- Implemented JWT-based authentication and role-based permissions.
- Used Celery and Redis for asynchronous email notifications and optimized database queries.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

ABC Institute of Technology, Bangalore | 2016 – 2020

CERTIFICATIONS

AWS Certified Cloud Practitioner | Python Programming Certification | Django Web Development Certification

DECLARATION

I hereby declare that the information provided above is accurate to the best of my knowledge.
