

MOHAMMED AVEZ

Frontend Developer / React.js Developer

Email: mohammedavezz080@gmail.com | +91-7019173141 | LinkedIn: <https://www.linkedin.com/in/mohammed-avez-a5216a1bb>

PROFILE SUMMARY

Frontend Developer with **3.5 years of experience** building scalable and high-performance web applications using React.js and TypeScript. Skilled in developing reusable component architectures, optimizing application performance, and delivering responsive, user-centric interfaces from Figma to production. Experienced in collaborating with cross-functional teams in Agile environments and improving application efficiency through modern frontend practices.

EXPERIENCE

Software Engineer - (Frontend Developer) Sep/2022 – Present
Moback Technologies India Private Ltd. Bengaluru, India

Roles and Responsibilities:

- . Developed React-based web applications, delivering user-friendly interfaces across desktop and mobile platforms.
- . Built reusable UI components using React, improving development efficiency and consistency across features.
- . Improved Application performance through code optimization and state management with Redux.
- . Collaborated with global teams in Agile sprints to deliver high-quality products on schedule.
- . Integrated REST APIs for real-time data handling and seamless backend communication.

TECHNICAL SKILLS

Frontend : React.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3, React Router, React Hooks.

Styling & UI: Tailwind CSS, Material UI, Bootstrap, Sass.

Tools & Platforms: Figma, Git, GitHub, Jira, VS Code, Cursor, Postman, React Testing Library, Chrome DevTools.

Database & CMS: MySQL, Contentful (Headless CMS).

PROJECTS

ORRA – Virtual Jewellery Store

- . Developed responsive and interactive UI components using React.js for a customer-facing e-commerce platform.
- . Implemented reusable component structures to ensure scalability and maintainability across multiple pages.
- . Managed application state using Redux for handling complex user flows and interactions
- . Optimized performance using lazy loading and memoization techniques to improve user experience
- . Integrated Contentful CMS to manage dynamic content, enabling non-technical teams to update UI content without code changes.

OPVA- Smart tool to Manage Workflows, Skills and Teams better

- . Built dynamic and responsive frontend interfaces from Figma designs using React.js and modern CSS techniques
- . Developed features for managing workflows, teams, and skills with seamless user experience across devices.
- . Integrated RESTful APIs for real-time updates and efficient data handling
- . Collaborated in Agile sprints ensuring timely delivery and performance optimization.

EDUCATION

Bachelor of Engineering (E&C)

Visvesvaraya Technological University

2021

CERTIFICATION

- . React – The Complete Guide (Hooks, React Router, Redux)
