

InterviewCoach AI — AWS Production Architecture
Region ap-south-1 · VPC 172.31.0.0/16 · https://ugaanlabs.ai · Plan B Split

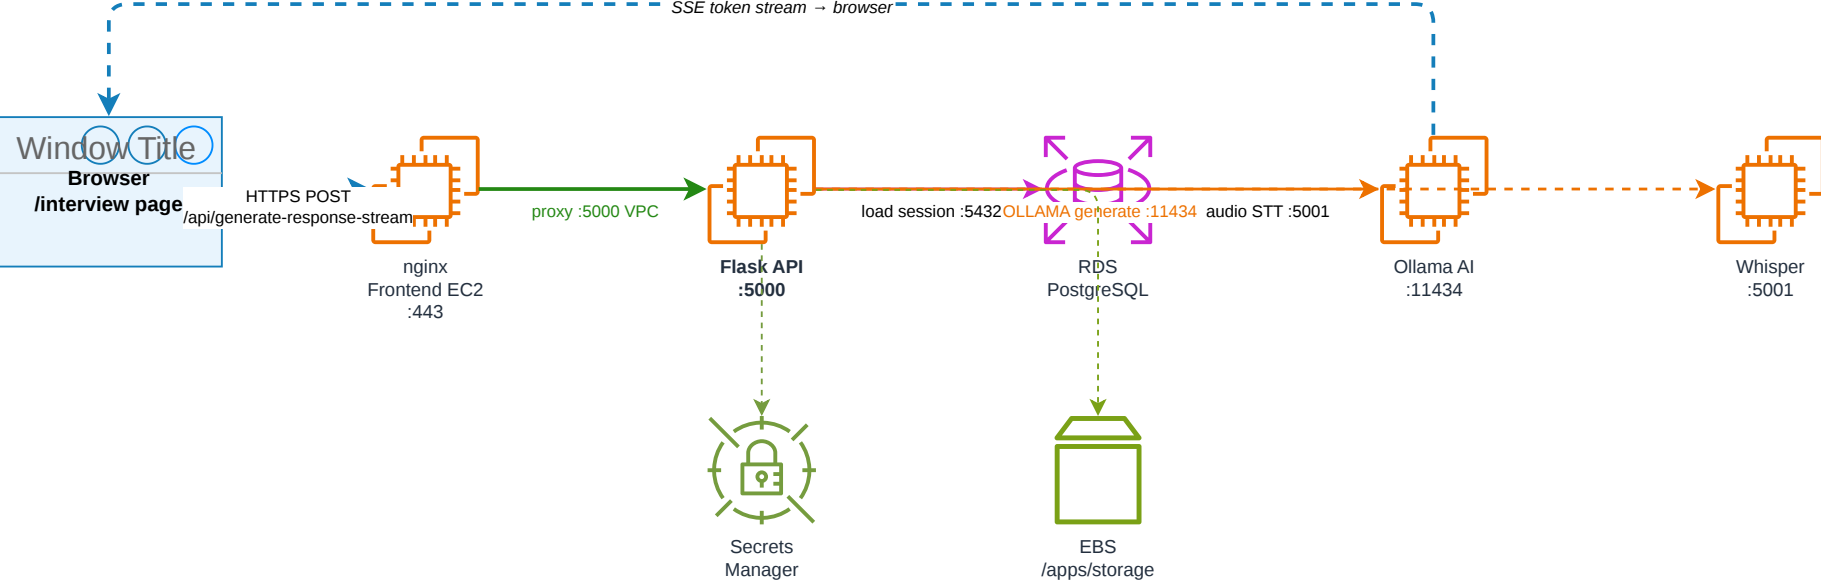

InterviewCoach — User Journey (Page-to-Page Flow)

Main happy path: Landing → Login → Dashboard → Upload → Questions → Interview → Feedback
All API calls go through nginx (Frontend EC2 :443) → Flask API (:5000) → RDS / Ollama / Whisper

Interview Request Data Flow — Live AI Turn

Steps

- 1 Browser POST SSE request
- 2 nginx proxies to API :5000
- 3 API loads JWT + interview session from RDS
- 4 API calls Ollama on AI EC2
- 5 Tokens stream back via SSE
- 6 (Parallel) audio -> Whisper :5001
- 7 chat_history saved to RDS
